Full-stack software engineer with 2+ years of experience building scalable web and mobile apps using React.js, Next.js, Node.js, and MongoDB. Skilled in performance optimization, responsive design, and clean, maintainable code.

SKILLS

- Languages: HTML, CSS, **JavaScript**, **TypeScript**, **Node.js**
- Libraries/Frameworks: **React.js**, **Next.js**, **React Native**, TailwindCss, Mui, Sass, React Query.
- Tools: debugging tools (**Debugger**, react-dev-tools, Lighthouse)
- Other : GitHub , Git , Database(**SQL**, **MongoDB** , **PostgreSQL**)
- Web Hosting: Netlify, Vercel, GitHub Pages, VPS, C-Panel

WORK EXPERIENCE

Brandeducer Digital Solutions

Petometer (Full Stack Developer)

March 2025 - Present

Platform: Mobile Application (Android + web)

Tech Stack: React Native, React Query

Responsibilities:

- Developed a mobile app frontend with **real-time data handling along with Firebase**.
- Integrated API's using React Query.
- Implemented core features and improved user experience through **responsive design**.
- Integrated RazorPay Payment Gateway.
- Used Google Maps API's for distance traveling and finding the best route to travel.

Autvob (Full Stack Developer)

November 2024 - February 2025

Platform: Web Application

Tech Stack: **Next.js**, **Stripe**

Responsibilities:

- Developed the frontend UI and integrated Stripe for subscription-based billing workflows.
- Managed secure payment processing and implemented webhook handling for real-time updates.
- Integrated WebSocket connections with a Laravel backend for live communication features.
- Integrated API's using React Query.
- Deployed the entire application on a Hostinger VPS, configuring the server for reliable performance and uptime.

Korikart (Full Stack Developer)

April 2024 - October 2024

Platform: Mobile Application (iOS & Android)

Tech Stack: **React Native**, **Redux**

Responsibilities:

- Built the complete mobile frontend using React Native and Redux for efficient state management.
- Delivered a seamless and consistent user experience across both Android and iOS platforms.
- Integrated Razorpay for secure and reliable in-app payment processing.
- Connected and managed RESTful API integrations for smooth backend communication.

Property Milegi (Full Stack Developer)

January 2024 - March 2024

Platform: Full Stack Web Application

Tech Stack: **Next.js, Prisma, MySQL**

Responsibilities:

- Developed a responsive real estate listings platform with advanced filtering and detailed property views.
- Designed and implemented CRUD APIs for property management using RESTful architecture.
- Defined and optimized the database schema to support scalable and efficient data storage.

WeConsultIndia (Full Stack Developer)

August 2023 - December 2023

Platform: Full Stack Web Application

Tech Stack: **Next.js (TypeScript), Prisma, MySQL**

Responsibilities:

- Led end-to-end frontend development using TypeScript and Next.js, delivering robust, type-safe user interfaces.
- Collaborated on API integration and UI logic to ensure seamless user experiences across devices.
- Designed and implemented CRUD APIs for property management using RESTful architecture.
- Defined and optimized the database schema to support scalable and efficient data storage.

Rexunite (Full Stack Developer)

May 2023 - July 2023

Platform: Web Application

Tech Stack: **React.js, Next.js**

Responsibilities:

- Implemented a scalable frontend architecture with server-side rendering using Next.js for improved performance and SEO.
- Deployed the application on Hostinger VPS with automated CI/CD pipelines to ensure smooth and consistent delivery.

PERSONAL PROJECTS

Emplog

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Responsibilities: Built a time tracking system with **daily logs, admin dashboards, JWT-based auth, and role management** — streamlining productivity tracking and reducing manual effort by ~30%.

EDUCATION

Graduation (**Bachelor of Technology**)

July 2019 - June 2023
